

JASHWANTH A

Embedded Systems and IoT Enthusiast

📞 9042740920 ✉ jashwanth.a2006@gmail.com 📍 Ambur, Tamil Nadu

SUMMARY

I am an Embedded Systems and IoT enthusiast with hands-on experience in Arduino and ESP32-based projects. I am skilled in developing real-time monitoring systems, sensor interfacing, and basic web application development, showcasing my strong problem-solving mindset and passion for practical hardware-software integration

EDUCATION

Bachelor of Engineering (B.E.) - E.C.E

C. ABDUL HAKEEM COLLEGE OF ENGINEERING AND TECHNOLOGY - ANNA UNIVERSITY , ARCOT
CGPA - 8.1/10 Based on 4 semester results.

📅 08/2023 - 05/2027 📍 Tamil Nadu, India

12th Standard

T. ABDUL WAHID MATRICULATION HIGHER SECONDARY SCHOOL , AMBUR **Percentage -76%(456/600)**

📅 06/2022 - 05/2023 📍 Tamil Nadu, India

10th Standard

T. ABDUL WAHID MATRICULATION HIGHER SECONDARY SCHOOL , AMBUR **Percentage - 50%(COVID BATCH)**

📅 06/2020 - 05/2021 📍 Tamil Nadu, India

LANGUAGES

English

Tamil

Native

Telugu

Advanced

STRENGTHS

Leadership and Teamwork

Ability to work effectively in teams, leading projects and managing tasks efficiently

Critical Thinking and Problem Solving

Solving Complex problems by logical and Critical thinking

Communication

Ability to communicate efficiently and making works easier as quickly adaptive

KEY ACHIEVEMENTS

Achievements in Competitions

Achieved runner-up position in state level digital forum and won at the national symposium, showcasing skills in both technical and non-technical events

Sports

District level Runner-up and Institution level winner in Ballbadminton Sport.

PROJECTS

IoT Projects

Hardware Projects focused on real-time data processing and monitoring.

- Developed real-time ECG, SpO2 and Heart Rate monitoring system using ESP32 and ThingSpeak for remote health tracking
- Designed a flame detection system using Arduino and relay module to automatically activate a water pump during fire detection

Web Development

[🔗 https://color-detector-cos8.onrender.com/](https://color-detector-cos8.onrender.com/)

Software Projects , analysing image by Web App.

- Developed a web-based Color Detection application that extracts real-time RGB and HEX Values from uploaded image using interactive pixel selection.

CERTIFICATIONS

Hackathon

* Achieved runner-up position in state level digital forum Naan-Mudhalvan.

*National level Symposium Project presentation winner at Institutional level.

College Events

Participated both Technical and non-Technical events and earned more experience across such events.

Sports

Winner in Ballbadminton Sport at Institutional Level
